No comments on reestablishing the parks department have been received by the office or Council members. Reestablishing the department will have an impact on the budget process and current contractor Jack Moore should be informed of such a decision at the earliest possible time.

It was the consensus of the Council that a Parks Dept makes sense based on the information presented at the last meeting and that a full department could handle the maintenance, repairs, and mowing as opposed to light maintenance and mowing the current contract system requires. Staff could be utilized in other areas as well. If the future of the community includes further development of trail systems and more parks, we'll need a year round crew to maintain it all properly.

Mayor Hudson and the Council noted that any change made is due to growth and need and is in no way a reflection of the current contract. A final decision will be made at the July 10 meeting.

Kennedy moved, Aden seconded, to pass and approve Resolution 2007-10 authorizing the sale of scrap wire. Roll call vote: Yea – Dudley, Whiting, Aden, Kennedy. Nay – none.

The parties requesting to close a street for a block party were not able to be at the meeting. No action was taken.

The fireman's ball was moved from the traditional third weekend in July to July 28 to avoid conflicts with other events. Dudley moved, Kennedy seconded, approval of a one-day license to sell beer, wine, and distilled spirits at the Firemen's Ball on July 28, 2007 and to block the street at the Fire Hall for the duration of the event, 1:00 p.m. to 1:00 a.m. Roll call vote: Yea – Dudley, Aden, Kennedy. Lisa Pula gave a brief presentation on establishment of railroad "Quiet Zones". The Union Pacific Railroad plans to increase the number of trains along the main line to an optimum of four trains per hour in each direction. Noise is and will be a major factor in Gothenburg's continued growth. Landscaping and tree lines can also reduce noise.

The process includes the City, Department of Roads, and the railroad and is a lengthy process, approximately two years that includes public awareness and hearings. In order to eliminate the federal requirement to sound the horn at every crossing, the crossings must have 4-quadrant gates instead of the standard two. Establishing a Quiet Zone costs a minimum of \$100,000 per crossing.

Council did not take action but did accept specific information on how to proceed with the process. Ms Pula also informed Council that the Ave J crossing will have much heavier use once the ethanol plant is operational and a fatality at that crossing will require more than a 4-guard gate to qualify for as a Quiet Zone.

Kennedy moved, Aden seconded, to adjourn the meeting at 7:50 p.m. Roll call vote: Yea- Dudley, Aden, Whiting, Kennedy. Nay – none. The next regular meeting will be July 10, 2007 at 7:00 p.m.
